

RFID Stock Management From D-Tech

Returns and Sorting Machines

RFID is the technology to help you extract the maximum potential from your library.

D-Tech's Returns and Sorting Solutions are the way forward in computerising the management of your returned stock.

The machines comes in a variety of sorting combinations and returns bins to suit the individual requirements of the library.

The service provided to your customers is 24 hours a day, 7 days a week.

The D-TechReturns machine can be installed in the wall of a building or detached. This station allows for easy return of items, 24 hours a day, 7 days a week; increased circulation of stock; optional receipt function; and, the facility to be planned within Library's architecture.

The D-TechSorter machine is an extreme low noise sorter-module. The 3-way sorts left, right and straight. The 5-way sorts into 2 channels on the right side, 2 channels on the left side and straight.

**D-Tech offer the complete solution for all your RFID needs.
