At
Location of Your Choice

[If you wish to attend please confirm to \(insert email address\)](#)

The New RFIQ/RFID in Schools Programme is designed to help you understand how best to protect your library stock.

This presentation is ideal for:

- Librarians
- Facilities Managers
- IT Managers/Officers

New "ICE"
Self Check
For
Schools

What you will learn by attending the RFIQ/RFID for Schools Presentation:

- What RFIQ/RFID is and why this new technology could benefit your School
- How RFIQ/RFID systems can link to your Library Management Software
- How RFIQ /RFID systems are structured - the modules you need and how you can build a more secure library, piece by piece e.g. Radio Frequency Tags, Deact/React Pad, Security Antenna
- How RFIQ is easily migratable to RFID - a system with not only Security but SelfCheck and Inventory Control
- How affordable RFIQ for Schools really is, and the simple migration steps to RFID
